Dear Members of Signature of Solon Country Club:

It is with much excitement and enthusiasm that I present to you the 2026 Golf Member Information Booklet. Inside you will find answers to many of your questions as they pertain to the golf operation here at Signature.

As we continue to grow and expand the golf experience at Signature, we ask that you use the **ForeTees** app to sign up for tee times in advance, especially for weekend play. Please be aware that if you make a tee time as a twosome, another twosome may join you online or be assigned to that tee time slot by the Golf Shop staff. All our golf events are available for registration on the **ForeTees** app.

If you have any questions pertaining to the information in this booklet, my door is always open. Feel free to stop by the Golf Shop or give us a call at 440-248-4573.

Northern Ohio Golf Association

Signature of Solon Country Club is a member of the Northern Ohio Golf Association (NOGA). To allow our Golf Members to participate in the many tournaments throughout our district, we must adhere to all NOGA rules and regulations. NOGA is part of the USGA's GHIN system, a stroke control system for handicapping purposes. These procedures will also help your Golf Committee and Handicap Committee establish equitable handicaps for our Club events. The annual handicap fee for all Members is \$48 + tax and billed in the May Statement.

Handicaps in Tournament Play

Unless otherwise stated, handicaps for tournament play will be determined 2 days prior to the start of any tournament subject to changes as determined solely by the pro shop in consult with the Signature of Solon Tournament and Handicap committees.

White Tees in Tournament Play

Unless otherwise stated on the following tournament specific pages, all tournaments will be contested from the blue tees. However, white tees will be available in tournament play (except for Member / Guest Invitational) and where stated, for all men aged 70 and older OR for all men whose age + playing handicap is 85 or more. (the “**White Tee Rule**”). **If you choose to use the “White Tee Rule” this must be communicated to the pro-shop **PRIOR** to the date of the event.** This can be noted in the notes section of your event registration or must be submitted to the professional staff via email **PRIOR** to the date of the event.

Equitable Stroke Control

Equitable Stroke Control (ESC) is the system which limits the number of strokes a golfer may report for handicap purposes. The maximum score you can record for handicapping purposes is **NET DOUBLE BOGEY**. If you are out of a hole and pick up your ball to speed up play, mark down the score you most likely would have made. For handicap purposes, you are required to adjust your hole score (actual or probable) when it is higher than the maximum score you can post for that hole. There is no limit to the number of holes on which you can adjust your score.

***** To simplify this process, enter your score into the GHIN app hole-by-hole. The GHIN app will make the necessary adjustments. *****

Posting Scores

After completing 18 holes, the player must enter his or her adjusted score on the GHIN mobile app. In addition, scores from other courses must also be entered into the computer for your handicap computation, using your adjusted score and the course slope and rating. If you have any questions concerning any of the above procedures, please ask one of the Golf Professionals for assistance.

All 9-hole scores as well as all 18-hole scores (with 10 or more holes played) are required to be posted. If you play 10 to 17 holes, the score must be submitted in the GHIN app by selecting 10-17 holes and posting scores on the holes you played. Any unplayed holes are to be left blank and GHIN will calculate your expected score for the unplayed holes based upon your index and a course of standard difficulty.

With the implementation of the new World Handicap System in 2020, handicap indexes are updated **daily**. Since the maximum score you can post on any given hole is now net double bogey, it is important that you confirm your handicap index on the day you played prior to posting your score.

It is important that you post your score with the proper date and course.

The Handicap Committee is fully aware the Club is to be used and enjoyed by the Members and the above-mentioned rule will not apply if a golfer enjoys a few holes while not playing under The Rules of Golf (i.e. practicing while hitting extra shots, etc.). The stroke control and posting procedures have been designed to account for all 9 and 18-hole rounds from the beginning of the golf season to the end of the golf season.

April 1st through October 31st is the active posting season in Northeast Ohio as defined by NOGA. You cannot post scores for handicap purposes for rounds played in a northern climate between November 1st and March 31st.

A Message from Your Handicap Committee

The Signature of Solon Handicap Committee is here to communicate, educate, and ensure that Signature is a healthy club, where competitions are run with everyone on an equal playing field. As previously communicated, our goal is to have every member post their scores in GHIN after every eligible round played, and to ensure they are posted correctly. In addition to communication and education, we are also auditing to ensure that members who compete in golf events and leagues at Signature of Solon are posting scores appropriately. When audits indicate that Signature of Solon members with a GHIN handicap do not post a score for a scheduled round, the committee will review and may post a score of par + 50% of the members course handicap for the round.

We realize that there are situations where you may not be able to post a score. This would usually happen when playing a format that is not eligible for posting, e.g., scrambles, playing less than 9 holes, or playing alone. If this is the case, please contact Daniel Wasinski to discuss the situation. This will have no impact for members who do not maintain a GHIN handicap for competitive purposes.

As always, please reach out to any of us on the committee if you have any questions regarding posting scores.

Sincerely,

Signature of Solon Handicap Committee

Course and Greens

A Message from Your Greens Committee

The primary focus of the Greens Committee is the golf course itself – the daily/weekly condition and presentation of the golf course to our members and guests and to a lesser extent, the longer-term vision of potential modifications/enhancements to the golf course in the years to come, all within the typical constraints of a corporate owned club. The Greens Committee will be the voice of our Superintendent (Kevin Barth) to the members to communicate information regarding what is expected of members and guests about taking care of our golf course (the “rules” if you will), what projects Kevin and his team are working on and have planned in the coming months, and relevant current conditions and circumstances that may impact the daily/weekly golf course conditions. Finally, the Greens Committee will liaise with the Tournament and Handicap Committees when appropriate for the betterment of the golf experience for our members and guests.

1. “Player ready” golf course daily, particularly on weekends and holidays – the committee defined this as mowed and rolled greens, fresh cups (painted white if possible) and fully raked and groomed sand traps at a minimum. We trust members have noticed that Kevin and his staff have focused on this as his plan is to mow 5-6 times a week, roll 4-5 times a week, rake, and groom traps at least 5-6 times a week and cut fresh cups 4-5 times a week.
2. Continue to reclaim the golf course from the wetlands – Those of you who have been around for years will attest to the wetlands creep that has occurred over the years and the amount of playable area we have lost. Kevin and his team have focused very hard on reclaiming many areas of the course and have a plan to continue to maintain a reasonable height of the wetland areas on the course and to keep the edges maintained to avoid additional creep.
3. Condition and safety of bridges – many of our bridges have deteriorated over the years and will require some level of repair which is a longer-term, off-season project that will be discussed at the corporate level. In the short-term, Kevin and his team over the coming weeks will be evaluating all of the bridges for potential safety concerns (i.e. nails, slick surfaces when wet, etc.) and plans to install a traction product on certain bridges to improve safety.
4. Penalty area/OB marking - The committee discussed the importance of enhancing the penalty area and out-of-bounds marking of the golf course and will liaise with the tournament committee and the professional staff on this to ensure consistency and

regularity of marking the golf course. Members should understand that stakes are visual indicators of the approximate location of a penalty area or out of bounds line. The actual painted lines represent the exact location of the hazard line or out of bounds line.

5. Golf course signage – Please respect without exception the signage incorporated to the golf course last year, which includes where cart traffic is restricted, where carts should enter and exit fairways and for drop areas, etc. Carts should be kept **OUT OF THE ROUGH** at all times except to enter and exit the fairway at designated points.
6. Kevin and his team plan to work with the corporate team to develop a long-term plan to improve drainage in traps throughout the golf course. This is no small task and will take some time, so we ask for patience from members on this point.
7. Expectations of all golf members and their guests – The committee spent significant time discussing what should be communicated to the membership regarding expected conduct, including that of guests. Following are the basic things we can all do to help Kevin, and his staff present the golf course to us and our guests in the best condition possible:
 - a. **Always check-in with the Pro Shop before teeing off.**
 - b. Next and most important – leave the golf course in better condition than how you found it –
 - i. This starts on the first tee box – be sure to pick up your tee even if broken and any others on the tee box. Do this on every hole and do not leave tees in the ground as they damage mower blades.
 - ii. Fill your divot with sand (or replace turf if intact). We have all gotten very frustrated to hit a perfect drive and then find it in a divot in the fairway. Fill your divot and 2-3 more. If we all do this, the problem will be solved.
 - iii. Rake sand traps – Same as above – we have all hit a shot into the trap only to find it in an unraked footprint. Rake the sand that you have disturbed like a professional caddy. Make sure you leave the area in better condition than you found it and don't be afraid to rake areas that someone else ignored. Rakes should be left in bunkers aligned in direction of play.
 - iv. Fix your ball mark! We understand sometimes it is hard to find your own ball mark. Make it a habit to fix at least 2-3 on every green including your own.
 - c. Golf carts should always remain on the cart path on all par 3 holes from tee to green. This is obvious to most of us but needs to be restated so everyone understands this expectation.

- d. Golf carts should generally be kept **IN THE FAIRWAY** and **OUT OF THE ROUGH**. Obviously except when conditions require cart path only, unless otherwise restricted (#16 for example) carts should enter the fairway from the cart path at the marked spot and should stay in the fairway and out of the rough as the hole is played ultimately exiting the fairway at the marked spot near the green. Kevin and his staff are working hard to improve the rough areas and keeping carts out of the rough will help improve the condition and consistency of the rough over time.
- e. Golf carts should never be driven near green – Carts should always be driven no closer than 30-40 feet (10-15 strides) to the greens and should NEVER be driven in the rough up near any greens – most notable violations of this are generally the left side of #2, the left and right side of #14, etc.

The Greens Committee plans to meet approximately monthly throughout the year and will continue periodic communications to the membership. We welcome all feedback and are happy to provide additional clarity on any of these points as may be needed.

2026 Tournaments and Golf Events

A Message from Your Tournament Committee

The Signature of Solon Tournament Committee is here to help plan and advise the Pro Shop's full schedule of all the Tournaments and Golf Events. Our goal is to create a fair, competitive and most importantly, fun experience for the Membership.

Over the course of 2025, the members of the Tournament Committee have played in the various events and carefully observed and listened to most of the participants. We have met several times to discuss and advise the Pro Shop on various elements and changes based on this feedback. While we try to accommodate all the suggestions and commentary (even complaints), we cannot (for a variety of reasons, logically, etc.) implement all. However, we believe the 2026 Tournament Schedule reflects the important matters.

In conjunction with the management staff, Pro Shop, and the other advisory committees, we are excited about the 2026 season!

As always, please reach out to any of us on the committee if you have any questions throughout the year.

Sincerely,

Signature of Solon Tournament Committee
